The Windermere Enhancement Scheme is scheduled to start on Monday November 26, 2007. The first phase will involve changes to the A591 junction with High Street, and should be finished in the New Year. The second phase will see major changes to Crescent Road, and minor alterations to High Street and Victoria Street – this part of the work will start on January 7, 2008, and is scheduled to finish in April 2008. The contractors, Alfred McAlpine, are intending to suspend works over the Xmas and Easter breaks.
