Dear Adrian

Thank you very much for your recent email with regard to the proposals for alterations to the traffic flow in Windermere that have been put forward by the County Council.

I have to say that I have received many letters in which Windermere residents have questioned the wisdom of these traffic proposals. I have therefore taken advice from the longest serving Councillors for the town from which I have learned that there have been extensive investigations of the possible options for improving the traffic flow and road safety in the past. It seems that almost everyone would agree that there is a strong case for action to improve upon the current arrangements. The previous inquiry produced widespread support for the option of constructing a roundabout on the A591. However this was stalled by the ruling that there was insufficient land area for this to be achieved. It seems to me that this idea should therefore be revisited and so I have written to the Acting Chief Executive of the County Council to find out whether such a scheme could be funded. I will write again, when I have received his response, but I would certainly agree that there needs to be the widest possible consultation.

I am most grateful to you for having given me the opportunity to explain my views on this important matter.

With best wishes

Yours sincerely
